Date: Monday, 20th July 2026

Subject: Utilisation of Fourth Saturday for Academic Classes (Classes VI–IX)

Dear Parents/Students,

In view of the **revised CBSE Curriculum 2026–27** and the increased academic content introduced under the new curriculum, it has become essential to provide **additional instructional time** to ensure the **timely and effective completion of the prescribed syllabus** and to strengthen students' academic learning.

Accordingly, the school has decided that **Fourth Saturday of every month** shall be utilised for Academic Classes for students of Classes VI–IX.

The additional instructional time will be utilised for the following purposes:

Classes VI–IX

- Vocational Education (*Mandatory component of the revised CBSE Curriculum*)
- Advanced Mathematics (*for students opting for Advanced Mathematics*)
- Advanced Science (*for students opting for Advanced Science*)
- Remedial Classes for students requiring additional academic support in identified subjects
- Sports Practice and Special coaching for Sports Activities

These sessions are intended to strengthen conceptual understanding, provide competency-based learning experiences, facilitate the effective implementation of the revised curriculum, support students opting for Advanced Mathematics and Advanced Science, and provide focused academic assistance to students requiring remedial intervention.

The **detailed schedule and timings** for the Fourth Saturday classes will be communicated shortly. **School bus transport facility will be available** for students attending these classes.

Students and parents are requested to ensure regular attendance, as these sessions will play an important role in enhancing academic performance and ensuring effective curriculum implementation.

We seek your wholehearted cooperation in making this initiative successful.
